RESPONSE TO OFFICIAL ACTION

Honorable Commissioner for Patents
P.O. Box 1450
Alexandria, Virginia 22313-1450

Sir:

In response to an Official Action dated September 22, 2005, Applicant respectfully submits the following remarks. This application contains claims 1, 4-19 and 22-37, all of which were rejected in the Official Action. Reconsideration is respectfully requested in view of the remarks that follow.

Claims 1, 5-11, 19, 23-29, 35 and 36 were rejected under 35 U.S.C. 103(a) over Lorie (U.S. Patent 5,933,531) in view of Jansen et al. (U.S. Patent 6,243,450). Applicant respectfully traverses this rejection.

Lorie describes a method and system for OCR using context analysis and operator input (abstract). The context analysis may use a dictionary (col. 8, lines 9-45). The system has the form of a conventional, standalone computer, including a bus, CPU, program store and user interface (Fig. 2, col. 4, lines 33-43).

Jansen describes apparatus for vending public multimedia services on a pay-per-use basis (abstract). The usage cost is computed based on the time of use of the service, wherein the charge for time may be adjusted depending on the network throughput (col. 12, lines 36-60, and col. 14, lines 11-18).

Claim 1 recites a method for document processing, in which images of document fields are received over a network from a client and are processed to code information
